

Philippine Youth Leadership Program 2019

A program funded by the Bureau of Educational & Cultural Affairs, U.S. Department of State and administered by Northern Illinois University in partnership with Xavier University and the U.S. Embassy in Manila.

ENVIRONMENTAL SCAN OF LOCAL COMMUNITIES IN MINDANAO

Guide to PYLP participants: Please ask a total of ten people (3 fellow students, 3 teachers, and 4 community members) to rank each of the common environmental problems below on a scale of 1 – 10, with 10 being the most serious and 1 being the least serious in your community. If the problem is NOT serious, then they can give it a zero.

You may include write-in environmental problems that may be unique to your community and which are not on this list. Please do this before you come to the U.S. in April and before your pre-departure orientation in Manila. You may also wish to ask your sample of citizens what they think could be done about these problems. Write those suggestions down for your reference when you design your action plan in the U.S.

PLEASE BRING THESE SURVEYS WITH YOU WHEN YOU COME TO THE UNITED STATES.

Thank you and we look forward to discussing the results with you.

These are Common Environmental Problems.

Please rank the following. 1 is least serious problem and 10 being the most serious problem.

- _____ Deforestation
- _____ Flooding of the river
- _____ Water pollution (rivers, lakes, ocean)
- _____ Loss of coral reefs or mangroves
- _____ Uncollected garbage
- _____ Failure to recycle
- _____ Plastic bottles in the environment
- _____ Air pollution
- _____ Loss of wildlife habitat

Other (please describe and rank)
