NOW IS THE TIME

Write Your Own Slogans

Creating your own unique slogan is a great way to spread the word about a great cause. Make your slogan short and to the point, with a few powerful keywords for emphasis. Make a note of the key environmental issues that you want to raise awareness of and then highlight the ones that make a real statement. When you have created your slogans, ask for feedback and continue to fine tune the slogans until you are happy with how they sound. When finished, your slogan can be used to create your own unique t-shirts and other items.
